Argentina — Open to remote

PROFESSIONAL PROFILE

Frontend Developer with 3+ years of experience building web applications for external clients. Specialized in React and TypeScript, with a strong focus on component architecture, code quality, and agile teamwork. Looking for remote opportunities where I can keep growing technically and contribute to real, scalable products.

PROFESSIONAL EXPERIENCE

Baufest · Argentina (remote)

Frontend Developer · Dec 2022 – Dec 2025

Project: Radar consoles & real-time monitoring

- Built critical configuration and monitoring interfaces adopted by external clients in high-complexity environments, reducing operational friction for the support team.
- Integrated WebSockets for dynamic data updates, delivering a smooth experience in dashboards with high-frequency data changes.
- Led the definition of React/TypeScript component standards for the project, improving code consistency and reducing onboarding time for new developers.

Project: Banking platforms

- Developed frontend features used by thousands of users, with a focus on performance, accessibility, and user experience.
- Built a reusable component library documented with Storybook, accelerating feature development and standardizing design across teams.
- Managed global state with Redux Toolkit in medium-to-high complexity applications, applying patterns that improved long-term maintainability.

Process & collaboration

- Actively participated in code reviews and refactors, improving codebase maintainability and readability.
- Collaborated in multidisciplinary teams under Scrum methodology, with a focus on continuous value delivery.

SKILLS

Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks / Libs	React, Redux Toolkit
Tools	Storybook, Git, WebSockets
Methodologies	Scrum / Agile, Code Review, Component-Driven Development

EDUCATION & LANGUAGES

Tecnicatura en Desarrollo de Software

Universidad del Chubut — currently enrolled

English — B1 Level

Professional reading comprehension and writing
